Re: Binder Items for RPC 2 Discussion and Review of Existing Board Regulations for Utility Rights of Way, 14 CCR §§ 1250-1258

In addition to the materials in your binder for the May 7, 2019, RPC meeting, the below links may be helpful to reference:

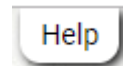

Power Line Fire Prevention Field Guide, 2008

<http://cdfdata.fire.ca.gov/pub/fireplan/fpupload/fppguidepdf126.pdf>

Utility Wildfire Mitigation Plans submitted to the CPUC this winter:

<http://cpuc.ca.gov/SB901/>

Tree Mortality Viewer: <http://egis.fire.ca.gov/TreeMortalityViewer/>

The "Help" tab in the top right gives you information about the development of the hazard zones, tree mortality surveys, and assets at risk, etc

- The checkmark symbol on the left allows you to turn map layers on and off to view the hazard zones, location of mortality projects, assets at risk, and reference layers

Your binders include

- RPC 2(b): Suggested revisions to the regulatory language in 14 CCR 1250-1258 by CAL FIRE and utility industry professionals
- RPC 2(c): Existing PRC and regulatory language related to the Board's oversight of power line clearances
- RPC 2(d): A side-by-side comparison of PRC vs PUC statutes relating to power line clearances
- RPC 2(d): Statutes and regulations related to the management of the Lumber Products Assessment Process
