

The Roll of Grazing in Today's Fire Regime

Sustainable Vegetation Management

*With a special introduction by Jennifer Montgomery, _____
For Governor Newsom's Administration*

*California is facing unprecedented fires – how can we respond?
In today's fire regime, we need a diverse toolbox to respond effectively
and manage the land to prevent catastrophic wildfire.*

The Range Management Advisory Committee, an advisory body to the Board of Forestry and Fire Protection, is hosting a workshop to discuss the historic and sustainable practice of livestock grazing as a fuel reduction tool. We would be honored to have your attendance at this workshop so that we may all work toward making California safer.

When: September 16th, 2019 at 7:45AM – 5:00PM

Where: Natural Resources Building
1416 9th Street
Sacramento, CA 95442

Questions may be directed to:
Brandi Goss, Environmental Scientist
Board of Forestry and Fire Protection
