Dr. Kristina Wolf

Environmental Scientist

California Board of Forestry and Fire Protection

Dear Dr. Wolf,

I am writing to express my interest in serving as the agency representative from the State Water Resources Control Board (SWRCB) on the Effectiveness Monitoring Committee (EMC). With my strong background in environmental science, water quality management, and resource monitoring, I am confident that I can contribute meaningfully to the committee's work.

In my current role as an Environmental Scientist at the California State Water Resources Control Board, I am engaged in various projects that align with the committee's objectives, particularly in developing and implementing strategies that ensure the sustainability and health of our natural resources. I have been involved in comprehensive monitoring programs, collaborating with other agencies, and providing data-driven insights that support decision-making processes. My familiarity with forestry practices, watershed management, and environmental regulations further complements the needs of this position.

I am committed to working effectively in a collaborative group environment, contributing to the development and timely completion of work products, and participating in decision-making processes that impact the committee's strategic goals. I am prepared to attend regular meetings, offer my technical expertise, and assist in evaluating and prioritizing funding proposals that align with our collective mission.

Please find my CV attached for further details on my qualifications and experience. I look forward to the opportunity to contribute to the important work of the EMC.

Thank you for considering my application.

Sincerely,

Marjan Ghotbizadeh, M.Sc., E.I.T

Environmental Scientist

California State Water Resources Control Board
