

## Key Words October 2022 RPF Exam

“ex situ” gene conservation

100% cruise

100-year flood flow

abiotic

absolute stand density

Active Channel Width

Adaptive management

Adequate Site Occupancy

advection fog

alternative costs

Alternative Prescription

alternative stocking standard

Angiosperm

Antecedent

anthropogenic

aquatic organism

archaeological background information

Baseline Monitoring

Beneficial Use

Best Management Practices

biological diversity

blind lead

Board of Forestry and Fire Protection

Broaddus

Brood Material

Cadastral Survey

California Coastal Commission

California coho ESU

CEQA

channel complexity

Channel Migration Zone

climate change

Coarse particulate matter, (PM10)

Coast Redwood

Coastal Nonpoint Pollution Control Program

Coastal Zone Management Act

codominant crown classes

commercial species

Compatible Use

Compliance Monitoring

Confidential Archaeological Addendum

countable tree

crown thinning

Crowning

cultural site

cutting cycles

Danger Tree

Deciduous

Dendrochronology

Density management diagrams

Depletion

desired future condition

Digital field recorder

Dioecious

disconnect the access system from the watercourse system

discount rates

Diseased Trees

Dominant

Ecological sustainability

Economic selection

ecosystem

efficient logging pattern

endemic

enforceable protection measures

Environmental Protection Agency

epidemic

evapotranspiration

External yarding distance

Fagaceae

feasible alternatives

Federal Clean Air Act

Federal Clean Water Act

Federal Endangered Species Act

Financial Maturity

Fire protection zone

Fish

Fish and Game Code

Fishing pole methods of extending reach

fixed radius plots

forest financial analyses

Forest monitoring

forest pest

forest product prices

forest restoration

formula rule

Forwarder

fugitive dust

Functional equivalent

future costs and revenue

gene flow

gene pool

genetic diversity

GLO Survey

good will

GPS

Greenhouse gas

growing space occupancy

growing-stock levels

High-Grading

Hydraulic excavators

Hyporheic flow

Inflation

Ingrowth

Inner gorge

intangible benefit

Integrated pest management

interest rate for investment analysis

interglacial

Intermediate

Internal Rate of Return

Intolerant

K-tag

La Niña

land use zoning

large woody structure

Laser measuring devices

leaf stomata

Legally Permitted Structure

linear program

live skyline

Log bale

log grades

Logging boom

logging costs

Logging live heel

Logging recovery rates

LWS

MAI

Map scale

Midden

Minimum Stocking Standards

Monoecious

natural climate system

Net present value

net volume basis

non-monetary returns

non-point sources

normal stand tables

Notice of Compliance

Overrun

PAI

Phloem

PNV

point sources

Porter-Cologne

potential conflicts of interest

potential significant adverse impact

prescribed fire

Primary production

private non-corporate entities

Professional Foresters Law

Property lien

property taxes

QMD

quadrat

quadratic mean diameter

rate of return on the capital

real rate of interest

Reforestation survey

Regional Water Quality Control Board

Registered Professional Forester

Regulatory Costs

Reinecke stand density index

Relaskop

relative abundance

relative humidity

relative stand density

residual growing stock

Rotating Grapple

rotation length

Salmonid habitat

sampling error

seedbed

selection method

selection thinning

Shovel Logging system

significance

site boundaries

Slash mat

Soil compaction

solar insolation

Staff compass

stand density

stand density index

standard deviation

standing skyline

status monitoring

step point transect

Stocking

Strips cruise

stumpage

survey intensity

survey method

Swing speeds

SWRCB

thinning

Timberland valuation

Topographic maps

total volume basis

transpiration

tree planting

Trend Monitoring

Uphill chucking

utilization standards

Validation Monitoring

vapor pressure gradient

variable plots

virgin old-growth

Watercourse

watercourse drafting

watershed restoration

weather

well-stocked

Yellow Pine Belt

young growth timber

zone of imminent competition mortality
